ABOUT US

Real school information, shared by parents.

OpenClass began with a simple frustration: up-to-date information on Zimbabwe's schools was almost impossible to find.

Many schools have no website, and those that do rarely keep them current, so parents relied on word of mouth for one of the biggest decisions they make. We built OpenClass as a school directory that is researched continuously and crowdsourced from parents.

Today it is one of Zimbabwe's most comprehensive education resources: school profiles with parent reviews, eMAP application help, tutors, classifieds, intakes and free guides like this one.

Learning by Doing.

Preparing Future-Focused Learners.

At St Angela, learning is designed to prepare young people for the real world. Alongside ZIMSEC-focused academics, learners are encouraged to think practically, solve problems, build confidence and grow through meaningful experience.

Learning by doing

Our developing farm-school approach gives learners opportunities to connect classroom learning with real life. Agriculture becomes a practical platform for entrepreneurship, budgeting, teamwork, science, sustainability and problem-solving. Activities include vegetable production and progressively introduced poultry, rabbit-rearing and other practical projects.
