About OpenClass

OpenClass was born out of the realization that finding up-to-date information on boarding schools in Zimbabwe can be a daunting task. Many schools lack websites, and those that do often fail to keep them updated, leaving parents with limited resources when choosing the best school for their children.

To address this challenge, we created OpenClass, a community-driven platform where information is crowdsourced.

It allows parents to interact, share experiences, and support each other in making informed decisions. What started as a small initiative has now grown into a vibrant and interactive community, helping countless parents navigate the complexities of selecting the right school for their children successfully.
